Wienerberger evaluates sale of treasury shares through accelerated bookbuilding

21 July 2021. Today, the Managing Board of Wienerberger AG (FN 77676f; the "**Company**") has decided to evaluate the sale of up to 2,500,000 treasury shares (ISIN AT0000831706), i.e. up to 2.2% of the Company's share capital, to institutional investors by means of an accelerated private placement (accelerated bookbuilding) and by excluding acquisition (subscription) rights of existing shareholders.

In accordance with statutory requirements, the Company intends to publish a report on the exclusion of acquisition (subscription) rights in connection with a possible sale of treasury shares on its official website registered in the Companies Register on or about 23 July 2021.

The exact timing and conditions of a potential transaction depend in particular on the capital markets environment, interest of potential investors and approval by the Company's supervisory board, which can be obtained after expiry of 2 weeks from publication of the aforementioned report at the earliest.

Sales proceeds resulting from a potential transaction could be used, amongst others, to take advantage of growth opportunities in water and energy management within Wienerberger Piping Solutions and for general corporate purposes.
